

Here are some general guidelines of items that are **NOT** allowed in the roll off dumpster:

- |                                                                                     |                                                                               |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------|
| <input type="checkbox"/> Aerosol cans                                               | <input type="checkbox"/> Monitors                                             |
| <input type="checkbox"/> All liquids                                                | <input type="checkbox"/> Motor oil                                            |
| <input type="checkbox"/> Animals                                                    | <input type="checkbox"/> Oil filters                                          |
| <input type="checkbox"/> Antifreeze                                                 | <input type="checkbox"/> Other flammable liquids                              |
| <input type="checkbox"/> Appliances                                                 | <input type="checkbox"/> Paint (except dried latex paint cans,<br>no liquids) |
| <input type="checkbox"/> Asbestos                                                   | <input type="checkbox"/> Paint (except dried latex paint cans,<br>no liquids) |
| <input type="checkbox"/> Barrels                                                    | <input type="checkbox"/> PCB/PCB-containing material                          |
| <input type="checkbox"/> Batteries                                                  | <input type="checkbox"/> Propane tanks                                        |
| <input type="checkbox"/> Chemical products                                          | <input type="checkbox"/> Radioactive material                                 |
| <input type="checkbox"/> Computers                                                  | <input type="checkbox"/> Railroad ties                                        |
| <input type="checkbox"/> Contaminated oils (mixed with<br>solvents, gasoline, etc.) | <input type="checkbox"/> Solvents                                             |
| <input type="checkbox"/> Dirt/Soil                                                  | <input type="checkbox"/> Televisions                                          |
| <input type="checkbox"/> Fluorescent tubes                                          | <input type="checkbox"/> Tires                                                |
| <input type="checkbox"/> Hazardous waste                                            | <input type="checkbox"/> Transmission oil                                     |
| <input type="checkbox"/> Herbicides and pesticides                                  |                                                                               |
| <input type="checkbox"/> Industrial waste                                           |                                                                               |
| <input type="checkbox"/> Lead-based painted debris                                  |                                                                               |
| <input type="checkbox"/> Lubricating/hydraulic oil                                  |                                                                               |
| <input type="checkbox"/> Medical waste                                              |                                                                               |
| <input type="checkbox"/> Microwaves                                                 |                                                                               |

Thank you for your compliance!
